INTERNATIONAL IT SECURITY CONFERENCE

Security BSides is the first grass roots, DIY, open security conference in the world! It is a great combination of two event styles: structured anchor events and grass-roots geocentric events.

VENUE:

LURDY CONFERENCE CENTER

1097 BUDAPEST

KÖNYVES KÁLMÁN KRT. 12-14.

+ LIVE STREAM

ORGANIZED FOR THE 8th TIME IN BUDAPEST

Our team has great experience in organizing IT security conferences as we launched BSidesBUD in 2017 and even the first one was a huge success with the **4th biggest BSides audience worldwide!** Since then, we took over the famous **Hacktivity IT Security Festival** and gained more and more knowledge about these kinds of events.

During the pandemic, we were forced to organize BSidesBUD as a live stream-only event due to COVID19 pandemic, but since **2021** we have been eager to return to the classic event form with **on-site presentations and workshops supplemented with a live stream** that can be watched anywhere. **We are expecting 400 visitors at #BSidesBUD2024.** Just like in the past years, we'll have speakers from all around the world to talk about the latest trends in IT security and maintain the international atmosphere of BSidesBUD.

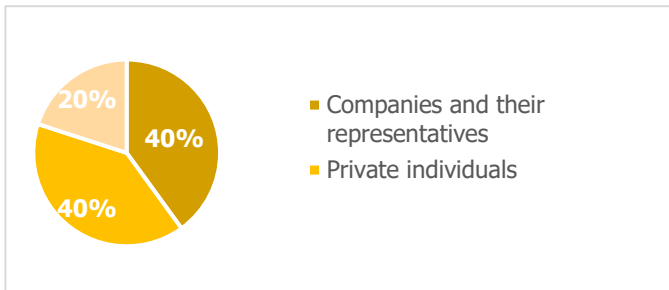

Visitors can enjoy the conference at the venue, but people who are not able/willing to be there in person, can communicate on a chat platform with each other and the sponsors to have an online conference experience as well.

1 DAY OF INSPIRATION, EDUCATION & NETWORKING
IT SECURITY PROFESSIONALS / STUDENTS / ENTHUSIASTS / HACKERS

Audience of BSidesBUD conferences:

REASONS TO SHOW YOUR SUPPORT

Since the first conference was organized in 2017, BSidesBUD has:

- **3200 visitors**
- coming from **40 countries**;
- **18 sponsors**;
- **100 speakers**;

The network and popularity of the event show a dynamic growth from year to year.

Based on 2023 statistics

Industry professionals from the following sectors:

- IT companies
- Financial services
- Energy
- Transportation
- Government & defense

As a proud Sponsor, you are offering to bring critical resources to help fuel the evolution of the industry from a fundamental level. Being involved in a conference as intimate and specifically focused as this has enormous benefits. We recognize your desire to not only support a great event but also to see a return on your investment. The following is a list of direct benefits you may see as an event sponsor.

• **Brand recognition and awareness:** Depending on the level of sponsorship, you may recognize your brand placement at some or all of the following: logo on website, footer of newsletters, streaming page of the conference, live stream video of the conference, social media platforms of the conference.

• **Recruit new workforce for your company:** BSides enables its supporters and participants to identify and connect with industry professionals, talents and students. This is the best opportunity to directly build networks, and recruit new workforce for your company.

• **Present new ideas, case studies and products:** Sponsors with on-site and virtual exhibition booth (above the Gold package) can present their products, case studies or ideas on a dedicated page in the Sponsors menu of the conference website. This is an innovation compared to previous years' BSidesBUD conferences.

We have made 3 different sponsorship packages for our sponsors to simplify the cooperation, but our team is flexible and open to negotiating about special packages. Please do not hesitate to contact us via [e-mail](mailto:info@bsidesbud.com) if you are interested in supporting BSidesBUD!
